

How to enroll in self-paced training

In [StrongStart](#), we offer self-paced courses that can be taken at any time and instructor-led training, offered in-person or in a webinar.

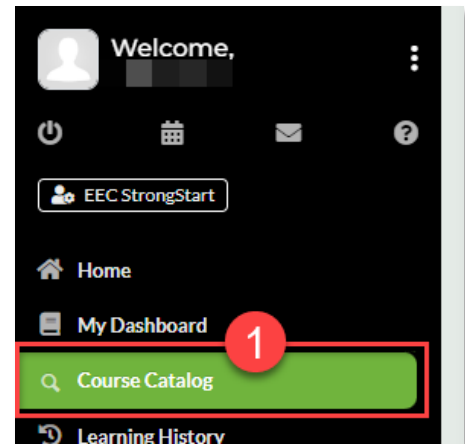

Here's how to enroll in **self-paced training**:

1. Open the Course Catalog

In StrongStart (strongstart.eoe.mass.gov), open the **Course Catalog**. Courses can have one or more required lessons. Some courses may include both instructor-led and self-paced courses.

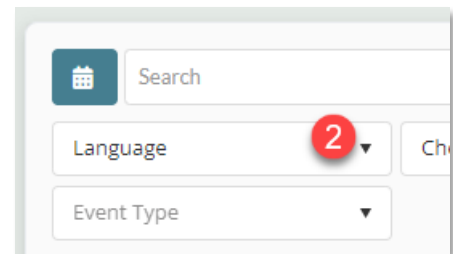

Above the course title, you can see what types are in each course:

-  E-learning (self-paced)
-  Scheduled Event (instructor-led)

2. Select your preferred Language

Open the **Language** menu and select your preferred Language. This will filter the catalog to only show courses in that language.

Optional:

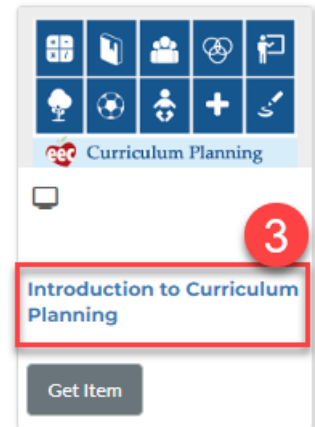

You can also **(a) Search** for a course title or subject and/or **(b) Choose a Category**.

You can use the Category menu to filter by *Category of Study*, to only show *EEC Required Courses*, or filter to only show *Instructor Led Training* or *Self-Paced Training*.

3. Select the Course Title

Select the Course Title to view more information about the course including the Overview and Objective.

4. Select Get Item

To add the course to your Cart, select **Get Item**.

5. Finish

In the Shopping Cart screen, select **Finish**. Once you select Finish, you'll see the course in your Dashboard.

When you are ready to begin, select the Course Title from your Dashboard, then select the first module.
